Abstract: This paper starts from disputes about the property reform of state-owned enterprises, insists that property reform of state-owned enterprises should be not stopped. Furthermore, the paper has put forwards the verifiability of the reform of state-owned enterprises, points out the standard of verifiability is whether the efficiency of enterprises can be raised, competition ability can be strengthened, total amount can be increased and structure can be optimized. On this foundation, the author has pointed out the complexity of asset pricing mechanism. Finally, the author suggests we should pay more attention to the problem appearing in the reform of state-owned enterprises and should insist on the system transform to push the reform of state-owned enterprises forward and accelerate the development of Public Sector Economy.

Key words: System transform; Public Sector Economy; verifiability
